Motivated web developer with a strong foundation in HTML, CSS, JavaScript, React, and NodeJS, seeking to leverage my technical skills and passion for creating user-friendly and visually appealing websites. With an eye for detail and a commitment to delivering efficient solutions, I aim to contribute to a dynamic team and grow as a developer in a challenging environment.

Work experience

Special process Aug 2023 - Present
Detroit Axle, Amman

- Managed the returns and refunds process, ensuring smooth and efficient customer experience.
- Handled product returns, verified warranty claims, and processed refunds promptly.
- Collaborated with the customer service team to resolve customer issues and inquiries.
- Maintained accurate records of return transactions and refund details.
- Worked closely with the logistics department to facilitate the return of parts.
- Contributed to streamlining the returns process, improving service efficiency and customer satisfaction.

PV systems Design Feb 2023 - Aug 2024
Kawkabuna For Energy Solutions, Amman

- Designed photovoltaic (PV) systems for residential homes, ensuring optimal energy efficiency and performance.
- Conducted site assessments, including measuring roof space, shading analysis, and electrical system evaluation.
- Utilized software like SketchUp to create accurate and detailed PV system designs.
- Collaborated with clients to understand their energy needs and tailored solutions accordingly.
- Worked with the installation team to ensure designs were executed correctly and systems were installed safely.
- Provided technical support throughout the installation process and after-sales service to ensure system functionality.
- Stayed updated with the latest PV technologies and industry trends to incorporate best practices into designs.

Education and Qualifications

Bachelor of Energy Engineering Oct 2017 - Feb 2024
German Jordanian University, Amman
